

# Take Care Further™

Signallamp Health's remotely-embedded Chronic Care Management (CCM) lets you maximize patient engagement to improve outcomes, satisfaction, and financial performance. All without up-front costs, additional staffing, software, or EHR integrations.

## Deliver Better Care From Anywhere

For many providers, care stops as soon as a patient leaves their front door. But what if care could extend beyond the clinic walls, to keep your most vulnerable patients healthy and out of the emergency room? That's where Chronic Care Management with Signallamp Health makes all the difference.

### Personalized Care, Real Connections

Our RNs and LPNs become a true partner in your patient's care journey. By ensuring that the same dedicated nurse is there for each call, we foster deep, meaningful relationships built on consistency and trust. And, with our team being U.S.-based and licensed in your patient's state, care is always close to home.

### Seamlessly Embedded, Swiftly Implemented

We understand the value of your existing systems and workflows. Why fix what isn't broken? That's why our nurses work directly in your EHR, using your established clinical workflows. Our goal is to enhance CCM without disrupting the rhythm of your practice. With Signallamp Health, change is good, but continuity is better.

**100%**

Patients Receive  
Medrec Guaranteed

**100%**

Patients Receive Care  
Plan Guaranteed

**90%+**

Patient Retention Rate

No software, complex EHR integrations, or process changes

A fast-tracked program launch that avoids IT queues and admin hurdles

No disruption to physician workflow, minimizing resistance to adoption

Enables immediate, effective patient care via direct access to your practice infrastructure

### Zero Financial Risk, Zero Out-of-Pocket Costs

With Signallamp Health, high-quality care pays for itself. By leveraging CCM and RPM CPT codes for reimbursement, we share revenue with you, ensuring zero financial risk and 100% profitability from the start. With us, you invest in a future where exceptional care and financial performance align.

### The Experts in Value-Based Care

Our CCM services are tailored to maximize quality and value, ensuring consistent, efficient care and engagement that aligns with VBC incentives. We handle the complexities, so your providers can focus on care without added responsibilities.

↓ 15-20%

Reduction in total cost of care

↓ 25%

Lower IP utilization (per 1,000)

↓ 62.5%

Lower ED utilization (per 1,000)

*This program gives our patients expanded access, personalization and a constant connection with their doctors, who can stay in front of issues and prevent avoidable hospitalizations.*

**Dr. Karna Patel**

*Signallamp's ability to identify care gaps and clinical issues has significantly improved our patients' health while helping us to succeed in newer reimbursement models.*
